STUDENT SPOTLIGHT

Jay Lafaye Washington

When Jay Lafaye Washington joined STEM Xposure in 2019, she had a dream to become an Architect and design Tiny Homes for veterans. She joined the program to help her gain the design skills for Architecture.

Lafaye's acceptance to FAMU is a great step towards her dream and passion. It can only get better Lafaye. Keep going!

MENTOR SPOTLIGHT

Deana Neely

Deana Neely, has over ten years of professional experience in the construction industry. Deana Neely impacted the camp through her wise words of encouragement to the young generation.

The She Draws Tampa Bay local camp saw many guest speakers who mentored the students and give the students motivation to pursue STEM careers in Architecture and Construction field.

CALL TO ACTION TO VOLUNTEERS

Each year we have many volunteers come out to make the camp experience better by offering services, skills, and time. We will have a variety of volunteer opportunities for the STEM Xposure's local, global, and Science of Beauty camp. There's a volunteer opportunity for everyone!

Check out our volunteer opportunities on our website and select the opportunity that's right for you.

CALL TO ACTION TO DONATE

The program's purpose is to serve as many youth as possible in our local and global community, with your support, the program will continue to impact the young generation to embrace STEM careers today.
Your gift will provide unique opportunities to the students- granting access to STEM leadership programs to enhance skills outside the classroom.
Your support goes a long way!
